Do You Know . . .

Tagging items with a wired, stringed, looped or cabled tag is the simple, convenient answer for a variety of shipping and identification information or warning notification and inventory control needs. It is ideal when shipping items that will not easily hold a taped or glued on shipping label. In inventory control, your company's insurance coverage may even require the use of such tags to identify property.

D. TRIPLICATE COATROOM CHECK TAGS

Perforated triplicate sheets numbered at top in bold red, 1 to 500. Tags say "In case of any loss, claim before leaving. Not responsible for contents of garments or items checked or any left overnight." Five packages of 100 each. Perfect for all functions: banquets, dances, etc. Bilingual.

PRODUCT NO.	SIZE	PACKED	LIST PRICE

Scotch
Choose the best tape for your needs!
There are basically four types of Scotch office tapes: Matte Invisible, Removable, Glossy Transparent and Double Sided. They're available in boxed and dispensered versions.
Magic™ Invisible Tape
• Highest quality Scotch® tape available for the office.
• Invisible when applied and won't show on most copies.
• Pulls off the roll smoothly and cuts easily.
• Can be written on with pen, pencil or marker.
• Photo safe
Removable Tape
• Matte tape with repositionable adhesive similar to Post-it® Notes.
• For temporary bonding; removes easily.
• Invisible when applied and won't show on most copies.
• Pulls off the roll smoothly and cuts easily.
• Can be written on with pen, pencil or marker.
• Photo safe
Transparent Tape
• Strong and glossy transparent tape with a high-clarity finish.
• Instant adhesion with excellent holding power.
• Long aging, moisture- and stain-resistant.
• Ideal for multipurpose sealing and label protection.
• Pulls off the roll smoothly and cuts easily.
• Photo safe
Double Sided Tape
• Self-sticking adhesive on both sides for joining and mounting board or paper.
• Transparent when applied.
• For a clean look where you don't want the tape to show.
• Durable for permanent application.
• Safe for colour photos.
• Also available in a removable version.

A. SCOTCH® REMOVABLE MAGIC TAPE

Scotch®

Features same self-stick adhesive as Post-it® notes. Holds securely yet can easily be removed or repositioned. Can be written on with pen or pencil. Resists moisture. 1" core.

PRODUCT NO.	DESCRIPTION	SIZE	PACKED	LIST PRICE
MMM 811P12M33	Roll, Dispenser Pack	12.7mm x 32.9m	8	~~12.45 EA~~

vtech

Cordless phone uses a lower band of radio frequency, coupled with advanced communication technologies, to make your calls simpler, safer and more soundful. Eliminates static and background noise. Offers crystal clear conversations without eavesdropping and interference with Wi-Fi networks. Features a handset speakerphone so you can place the phone next to you without holding it in your hands and still have a conversation. Perfect for multi-tasking. Includes caller I.D. and call waiting. Stores and dials up to 50 frequently called numbers. Provides digital security to protect you from identity theft. Trilingual prompts let you choose between English, French or Spanish. Wall mount bracket included. Two handset system requires only one phone jack. Lets you transfer calls, intercom and conference outside calls between handsets.

How to Choose the Right Trimmer

Why Use a Cutting System?

- Enables user to accurately trim and cut large amounts of paper in one pass
- Used to make precise cuts to shape or divide documents or projects

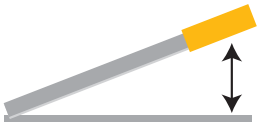
What can a cutting system be used for?

- Photographs
- Large Volumes of Paper
- Foam Board
- Matting (picture frame matts)
- Laminated Documents
- Paperboard
- Leaflets
- Cutting Leather

Which Cutting Solution?

ROTARY

Rotary paper trimmers have a round blade enclosed in a cutting head that slides along a metal guide bar. They are ideal for making straight cuts through low thickness and are widely used by photographers, in advertising and graphics studios, in schools and at home – e.g. by scrapbook enthusiast!



GUILLOTINE

Paper guillotines are a high-end solution that are designed for high-volume cutting. The paper can be clamped into place and the handle brought down in one motion to cut through the paper with a straight clean cut. They are ideal for cutting thick stacks of paper into various sizes.

Where Will the Cutting System Be Used?

	Project Uses	Blade Type	Maximum Sheet Capacity	Maximum Paper Length
PERSONAL	Laminated Sheets, Scrapbooking and Photo Projects	Stainless Steel	10	10"
HOME OFFICE	Presentation documents, laminated or light card stock	Stainless Steel	20	12"
SMALL OFFICE	Multiple users with multi-page presentation documents, heavy paper thickness or light cardboard	Stainless Steel	30	15"
LARGE OFFICE	Many users with long presentation documents, heavy paper thickness, foamboard or medium cardboard	Stainless Steel	40	18"

What Features Meet Your Needs?

CUTTING PRECISION

Consider the following features...

- **SafeGuide LED** for precision cutting, it's safer than laser
- **Laser Guides** help you spot exact location of the next cut
- **Memory Features** allow you to easily recall a previous cut
- **Paper Clamps** hold paper firmly in place to ensure precise cuts
- **Permanent Alignment Grid** to ensure precision cutting

CUTTING APPLICATIONS

Consider the following features...

- **SafeGuide LED** for precision cutting, it's safer than laser
- **Designer Blades** add custom patterns for a unique look to your project

SAFETY IN USE

Consider the following features...

- **SafeCut** The Safecut system ensures that users can change the cutting cartridge without touching the blades
- **SafeGuard** shield prevents accidental blade exposure
- **Automatic Blade Locking System** prevents blade exposure when not in use
- **Torsion Spring** prevents blade from falling during operation

EASE OF USE

Consider the following features...

- **Comfort Grip**
- **Self Sharpening**
- **Cutting Guides**
- **Blade Cartridges**
- **Storage Compartments**

Prices subject to change without notice.

A. COMMERCIAL-QUALITY 350-SHEET PAPER TRIMMER

MARTIN YALE Industries

Cuts a stack 1½" thick and 12" wide in one stroke. Paper clamp with hand-wheel control provides a clean cut without shearing or tearing. Custom-designed blade for precise multi-sheet cutting. Paper guide locks onto calibrated measuring rule, with Imperial and Metric scales. Equipped with blade safety latch. Baked enamel on metal parts. Not recommended for business cards.

A. 50 GALLON BRUTE ROLLOUT RECYCLING CONTAINER

Rubbermaid Commercial Products

Rollout recycling container provides easy mobility for recycling collection and other material handling. Can reduce amount of handling by serving as a central collection container for shipping. Attached hinged lid fits tightly, swings back and locks. Heavy-duty eight inch wheels afford easy mobility, even over steps and curbing. Moulded-in axle retainer adds strength. In-mould catch bar is compatible with semi-automated lift systems. Rollout container is hot stamped with "We Recycle" chasing arrows logo. Exceeds EPA guidelines for percentage of post-consumer recycled resin.

Random Thoughts . . .

If it weren't for electricity, we'd all be watching television by candlelight.
